

The TITAN Firecomm HUC7

Short Boom Mic Headset

THE TITAN FIRECOMM HUC7

The innovative microphone technology used with the Titan Firecomm HUC7 headset lets users communicate clearly without needing to have the microphone in front of the mouth.

The microphone sensitivity has been adapted so users can transmit clear audio even when wearing masks and in noisy environments.

The HUC7 also has a high-performing speaker, a flame retardant coiled cable and comes with a nexus TP120 connector that fits Titan's portfolio of Remote Speaker Microphones and PTT-units.
