Wireless Audio Accessories

WAG - Wireless Audio Gateway

The Titan Wireless Audio Gateway

The Titan Wireless Audio Gateway for mobile radios makes wireless communication easy in all environments. The state-of-the-art WAG has two AIRCRYPT modules built in. One module for wireless headset pairing and one module for wireless PTT pairing.

The Titan WAG has a side PTT button, volume control and 2 LED for easy pairing.

The Titan WAG can be paired with all Titan wireless headsets and most consumer headsets.
